

An abstract geometric composition featuring overlapping shapes in a palette of warm oranges, yellows, and browns, alongside cooler blues, greens, and greys. The central focus is a pair of hands, one in a light peach tone and the other in a pale yellow, reaching towards each other. The background is filled with various polygons, circles, and organic forms, creating a sense of depth and movement. The overall style is reminiscent of mid-century modern or Bauhaus influences.

LA DANSE

DINING TABLE

The pioneer of Fauvism, Matisse, aimed to simplify abstract forms in his paintings. In "La Danse", Matisse reduces the human figures to primary, stylized shapes, using bold, flat colors to define their contours. Malabar designers capture the essence of rhythm, harmony, and collective expression of this iconic painting, often called a visual symphony of dance, and conceived this newest artsy La Danse dining table.

Through this controversial bar stool design, Malabar is delivering a message about itself: with an eye on the past yet with a twist of possibility and future, Malabar designers were bold enough to project an artsy bar stool with a flair of Roman architecture with golden wings. The wings represented freedom, free from rules Malabar designs artsy pieces.

Memphis keeps inspired artists and becomes a trend in interiors and furniture. Tributing Ettore Sottsass, the rule-breaking Malabar creatives designed this versatile piece of art – the Sketch Chest of Drawers.

With a rich palette and mix of Verde Guatemala and Rosso Levanto marbles, polished and brushed brass, and walnut, black stained ash wood, and Tanganyika wood leaves, the handcrafted Sketch Chest of Drawers is like a sketch infusion of Memphis' DNA.

One of the most provocative Surrealists of his time, Paul Delvaux creates a spirit in his painting that is not particularly joyful. Inspired by the evocation of a more psychological reflection on couple life's joys of the painting, where hands touch, Malabar designers conceived this art looker.

SUSPENSION LAMP

Berlin is the name of the “Broken Chain” sculpture localized in the middle of the Taentzienstraße in Berlin. According to the sculptors, it is accessible from all sides and looks like a double arch. DINING CHAIR

The Mid-Century Modern Anita Dining Chair is a piece where lush, beauty and delicacy hide the fierceness and unbridled sensuality of one of the 50s iconic personalities: Anita Ekberg. This chair is a homage to the beauty and glamour of the golden age of Italian design and a tribute to the star of La Dolce Vita. Its curved lines and comfort evoke the iconic style of the mid-century and the classic films of the time.

This art deco piece has an exquisite jacquard velvet upholstery supported by long wood lacquered legs finished with extremely elegant polished brass details. The seat is comfortable and supportive, while the backrest has a subtle curve to provide extra comfort and support.

Vina Lisi started her film career in her early teens in Rome. Though Lisi turned down “From Russia with Love”, the Hollywood producers were scouting a new Marilyn Monroe, so Lisi debuted in Hollywood comedy movies.

Inspired by the Hollywood Golden Era vibes, Ottiu designers conceived the mid-century modern Lisi bed. Its curved headboard is dressed up in a smooth pastel cotton velvet and presents polished brass nails that embellish even more its glamorous design.

CROCKFORD SOFA

Structured in walnut wood upholstered in linen, with carefully handcrafted rattan details, the Crockford Sofa honors William Crockford and his Gentlemen's Club. A simpler version of this piece (rattan free) was also created, which is the perfect choice if you are looking for a more minimalist style.

ARTISTIC *TECHNIQUES*

*"...artisans use
their hands
to apply
this technique..."*

HAND PAINTING

This two-dimensional art resorts to different techniques with different kinds of paint made of different pigments. For a fully personalized work, where no piece's details resemble the others, artisans use their hands to apply this technique, swiping the brush with their own flow and tact.

METAL WORKING

Act of forging metal through methods like casting, hammering and spinning. To get moldable, metal is heated to high temperatures and handled with specific tools that allow the artisans to create the desired shapes.

SCULPTING

Just like metalworking, sculpting is the art of changing the shape of materials such as stone, metal, glass, pottery and wood. Having an extremely tactile component given the conception of textures, relief and volume, it represents a technique born in the prehistoric period.

LEAF GILDING

Gold Gilding is an appliance of a leaf-like thin coat of metal on top of solid wood surfaces.

These surfaces must be, first and foremost, impeccably prepared with a primer. Once the surface is primed, the artisans place carefully the gold, silver or copper leaf and start the leaf beating with a paint-brush by hand.

This technique is thousands of years old and has the ability to transform even the dullest pieces into something breathtakingly beautiful.

WOOD CARVING

Is one of the most common practices in sculpting. Very subtle details can be carved in wood by using a variety of razor-sharp tools, from gouges to saws. The hands of the woodcrafters must exert the appropriate force so the wood is not damaged, which requires the mastery of this art.
